

ECONOMICS (BBA)

The economics major prepares students for a wide variety of careers in service firms, manufacturing firms, banking, insurance, market research, data analysis, real estate, consulting, government agencies, and non-profit organizations among others. A major in economics also provides an excellent foundation for students who plan to attend MBA programs, law school, and doctoral programs in business, public administration, economics and many other social science areas. Perhaps most importantly graduating with a degree in economics can serve as a strong signal to potential employers that you have gained valuable analytical and reasoning skills as well as the ability to think critically.

B.B.A./Masters Five-Year Option

In the final two semesters before graduation, senior business majors who intend to continue with a College of Business and Health Administration Master's degree, at the University of St. Francis, may take up to nine credit hours of graduate level HSAD, MBAD, MGMT, or TDEV courses to meet undergraduate requirements. The students will be required to complete the graduate level work in each class. Although these credit hours will remain on the student's undergraduate transcript, these credit hours/course requirements will be considered as complete in the appropriate graduate program. Students who take a minimum of nine graduate level credit hours in their senior year are eligible to complete their master's degree in one-year (attending full-time). Permission must be obtained from both the undergraduate and graduate business advisors to utilize this option.

National Honor Society

The undergraduate business programs provide students with the opportunity to be a member of Delta Mu Delta, an international honor society in business administration with a growing membership of 150,000. For membership, students must have completed over 60 credit hours and be in the top 20% of their class with a minimum cumulative 3.25/4.0 GPA.

Major Program (57 credit hours)

Code	Title	Hours
