

# LEADERSHIP STUDIES - MINOR PROGRAM

The Leadership Studies Minor offers unique opportunities for students to develop their leadership skills through experiential activities such as service learning, student organization leadership roles and community outreach programs. Leadership students will:

- Enhance their individual student experience on campus
- Develop their leadership abilities
- Practice leadership skills by getting involved in management, programming, and event planning opportunities within campus or community organizations.

As they progress through the program, students develop their leadership skills guided by philosophy and personal growth. The program is designed to build student leaders who adhere to Franciscan values and engage in service to others for purposes of creating a higher quality of life for all.

The 18 credit-hour minor contains a combination of required and elective course work including field experiences. Field experiences I & II provide a training laboratory for students to be able to apply and practice their skills in leadership positions in university and community outreach programs. Senior Leadership is a capstone experience where students plan, design, and implement a leadership project and finalize their leadership portfolio. Also, these students take an active mentorship role with new students coming into the Leadership Studies program.

The program requires students to participate in outside the classroom leadership development activities, service learning, student organization leadership roles, and community outreach programs. Co-curricular experiences enable students to: enhance their individual student experience on campus, develop their leadership abilities, and practice leadership skills by getting involved in campus student organizations, programming, and event planning.

## Minor Program: Leadership Studies (18 credit total)

| Code                         | Title   | Hours |
|------------------------------|---|-------|
