

SUPPLY CHAIN MANAGEMENT (BBA)

Supply Chain Management will prepare students for knowledge intensive positions within this fast growing industry. Graduates in this major will be prepared to solve complex problems and meet organizational goals in a variety of venues including business logistics, distribution, supply chain management and domestic and international transportation management.

B.B.A./Masters Five-Year Option

In the final two semesters before graduation, senior business majors who intend to continue with a College of Business and Health Administration Master's degree, at the University of St. Francis, may take up to nine credit hours of graduate level HSAD, MBAD, MGMT, or TDEV courses to meet undergraduate requirements. The students will be required to complete the graduate level work in each class. Although these credit hours will remain on the student's undergraduate transcript, these credit hours/course requirements will be considered as complete in the appropriate graduate program. Students who take a minimum of nine graduate level credit hours in their senior year are eligible to complete their master's degree in one-year (attending full-time). Permission must be obtained from both the undergraduate and graduate business advisors to utilize this option.

National Honor Society

The undergraduate business programs provide students with the opportunity to be a member of Delta Mu Delta, an international honor society in business administration with a growing membership of 150,000. For membership, students must have completed over 60 credit hours and be in the top 20% of their class with a minimum cumulative 3.25/4.0 GPA.

Major Program (54 credit hours)

Code	Title	Hours
