

SUPPLY CHAIN MANAGEMENT (B.S.)

The Bachelor of Science in Supply Chain Management program is an accelerated adult degree completion program within the School of Business. Students with current or future interest in supply chain management careers will benefit from the strong combination of applied knowledge and practical experience found in the curriculum. The goal of the B.S. in Supply Chain Management is to prepare adult students to meet the challenges that they will face in the exciting world of supply chain management. Students will be able to apply concepts from the courses into their jobs, from supply chain planning, supplier management, manufacturing, distribution, transportation, logistics to customer experience.

The B.S. in Supply Chain Management meets the needs of adult students who are working in (or plan to work in) all areas of supply chain management. The B.S. in Supply Chain Management also provides a solid foundation for the Master of Business Administration (M.B.A.) degree, the Master of Science in Management degree, or any other graduate business degree and offers students the opportunity to begin taking graduate courses as part of their undergraduate curriculum. B.S. in Supply Chain Management graduates will learn about many areas of supply chain management, including operations management, supply chain planning and forecasting, supplier management, logistics management, transportation management, and international logistics management, in addition to strategic business management and a core curriculum of business courses.

Program Mission

The mission of the B.S. in Supply Chain Management program is to provide adult learners with the highest quality of applied supply chain management skills to fulfill their intellectual and professional career needs.

Program Features

The courses within the B.S. in Supply Chain Management program are taught completely online in an 8-week accelerated format to meet the educational and lifestyle needs of adult learners. The online course format offers flexibility and a practical option for professionals with busy personal, work and travel schedules. With three semesters per year and two eight-week sessions each semester, there are six entry points for the program. Even students taking one course at a time are able to complete six courses per year.

Transfer Credits

Students must transfer a minimum of 60 credit hours. A maximum of 90 credit hours may be transferred from a community college. At least 30 credit hours must be taken at USF, including 15 hours of upper-division coursework, with 30 of the last 36 hours earned at USF. A student must complete a minimum total of 120 credit hours to graduate (including transfer credit and USF credit).

Prior Learning Assessment

Many adults have experienced college-level learning outside the traditional classroom. The Prior Learning Assessment Program is a portfolio process in which the student documents all learning through work and life experiences to receive college credit for learning that is

equivalent to courses offered at the University of St. Francis. Up to 33 credit hours of college credit may be awarded through the Prior Learning Assessment Program, including Military, CLEP and DANTES credits.

National Honor Society

The undergraduate business programs provide students with the opportunity to be members of Delta Mu Delta, an international honor society in business administration with a growing membership of 150,000. For membership, undergraduate students must have completed half of the requirements for the degree and be in the top 20% of their class with a minimum cumulative 3.25/4.0 GPA.

Code	Title	Hours
General Education Courses		
ECON 101 or ECON 102	Principles of Macroeconomics Principles of Microeconomics	3
